Alexan Nominations for the Brooklyn and Submeban Races.

Hen Brush Will Without Doubt Carry Fop Weight-Imported Barcelona Will Start.

The horses nominated for the two big spring handicaps-the Brooklyn and Suburban -comprise the best material in the United States. Numerically the same number have entered for the Suburban, while there are ten more entered in the Brooklyn than in 1897. The candidates for both handleaps are much the same, though Traverser (3), Ulysses (5), Previous (3), Winged Foot (4). Lake Shore (7), Schiffer (5), Our Johnny (4), and Mohegan (3) appear in the Procklyn and not in the Suburban, and Scottish Chieftain (4), Counter Tenor (6), Murillo (3), Fleishman (4), Imp (4), Poetess (4), Requital (5), Peep o'Day (5), Maceo (4), Connoisseur (6) and Tragedian (4) are in the Suburban and n at in the Brooklyn. Eachs, andcap is of the value of \$10,000 and is run over a one and a quarter mile course. The and look at them. Don't buy un-Brooklyn is run at Gravesend, May A and the Suburban at Sheepshead Bay, June 18. Weights for both are to be an-neunced February 1, but the following contingencies are in the latter which do

not exist in the former:
"Winners after the announcement of weights of two races of \$600 or one of \$1,400, 4 pounds extra; of two of \$1,400 \$1,400, 4 pounds extra; of two of \$1,400 or one of \$2,700, 8 pounds extra; of three of \$1,400 or two of \$2,700 or one of \$5,000. 12 pounds extra. In the cases of horses handleapped at 115 pounds or over, these penalties shall apply to the extent of one-half only; in the case of those handleapper at 122 pounds or over, to be extent of one-paratre may see in the case of those handleapper at 122 pounds or over, to be extent of one-paratre may see in the case of those handleapper at 122 pounds or over, to be extent of one-paratre may see in the extent of one-quarter mly, and in the case of those handicapped at 130 pounds or over they shall not apply at all. Pezalties in the case of torsen 3 years old shall not make the weight

to exceed 15 pounds.
It is rare to see an imported horsowned by an Englishman, entered in the great handicaps here, but the enterprising J. S. Curtis, who last year purchased some American thoroughbreds, has entered his five-year-old Royal Stag, by Highland Chief-Barcelona, who raced fairly well as a three-year-old in England. W. C. Whitney's newly formed stable has entered two, Loki and Low Bramble, under the name

Loki and Lou Bramble, under the name of Schicey Paget.

J. W. Schorr & Son evidently intend racing in the East this coming season, as they have entered three – Macy. Meadowthorpe and Algol.

J. R. Keene's new purchase, Ben Brush, will, without doubt, be assigned top weight by the handicapper, though Ben Heilidan, who booke the record at Ben Holliday, who broke the record at one and three-quarter miles with 11s was pounds up in 2.59% last October, will no doubt be there or thereabouts. Sir Walter has again been entered, but it is doubtful if he will bear the strain of training.

Ornament stands out ahead of the four-year-olds, and no doubt will be well taken care of, as his victory last year in the Twin City Handleap at Sheepshead Bay, one and one-quarter miles, in 2:05 2-5, with 118 pounds up-was a great performance. There is a good four-year-old in On Deck, belonging to Bromley & Co., who has shown class and power to go a distance, but went wreng or something else, like the rest of that stable. "Charley" Hughes, their late trainer, proposes racing his own string in the West this year, so no doubt under the watchful eye of Julius Bauer, their new trainer, fortune will smile on that enterprising firm. On Deck picked up 100 pounds one and one-quarter mil a slow track last spring.

Loki will have a light weight. He to Howard Mann. The latter is now in California racing, as is also the pick of the three-year-olds, Traverser, who is reported to be the best colt on the coast. Up to the present no three-year-old has placed the Brooklyn to its credit.

NEW ORLEANS RACES

A Jockey's Stupidity Saves the Poolrooms \$50,000.

New Orleans, Jan. 26 .- Jockey Comba gave an exuibition this afternoon of how a rider can lose a race when he has it won. Combs rode Pat Motrissey, who made his first appearance in the meeting in the fifth race-Pat Morrissey was backed from 15 to 1 down to 5 to 1, and the ring and outside pooltooms stood to lose \$50,000 on him. Combs got away second and assuming command opened up a gap of a few lengths, which he maintained until within twenty yards of the wire, when he eased the gelding up, and was raced out at the post by Mazeppa- There was a howl from the grand stand over Combs's care-lessness, but as it was stupidity on the jockey's part, the judges could take no

Sam May and "Virginia" Carroll's

Recent Set-to Described.

The New Orleans Rem thus describes Bookmaker May's set-to with "Virginia" Carroll at New Orleans last Friday: "Sam May, the St. Louis Cyclone, feinted with \$7 worth of demonetized but current silver, and then led with a \$29 pair of field glasses. Jim Carroll, the Virginia Humming Bird, ducked cleverly. His seconds jumped into the ring. The police interfered. Amateur was scratched and all bets were deciated off. All this ruffled the naturally tranquil surface of the Crescent City Jockey Club's meeting. Everybody was excited, and it was well along towards evening before matters resumed their normal condition. "The blow-off was sudden, but not unexpected. It had been working gradually up to the boiling point for three days. During that period Car-roll's bright remarks and airy persiroll's bright remarks and alry persi-flage had been lost on the ring at large, and the impression got abroad that he had lost form. The fact of the matter was that Sam May, who haply drew in next door to him, was getting it all, and getting it hot off the bat, too. May was inclined to take Virginia serious-iy. The St. Louis man is a good handi-canner and a good indge of prices, but capper and a good judge of prices, but when it comes to repartee he is entitled to a maiden allowance. Carroll twit-ted sharply on facts during the prog-

ress of the betting on the second race. The display of physical resentment on the part of May came immediately upon Carroll's 'throwing into him' a particularly hot one that scorched his very eyebrows.

MILLS ON ROWDYISM He Believes Stringent Measures

Should Be Adopted Against It. New York, Jan. 26 .- A. G. Mills, expresident of the National League, who was one of the original framers of the national agreement, which is the bulwark of the baseball game, is among those who advocate the abolition of rowdy ball playing. When asked today what would be a remedy for the existing troubles,

Mr. Mills said: 'As far as I have investigated the matter, it seems to me that the club owners of the league are to blame for the dis-Another horse nominated and racing graceful behavior of their players on the field. The umpire question has been a subject for discussion ever since the National League was organized. In my If the trip across the Rockies is not opinion, there is only one way to stop this trouble, and that is, not only to this trouble, and that is, not only to for not having these horses fit, same will apply to Schorr & Fosit a condition of the contracts which the horses, which are now racing in players must be asked to sign. I like to see players display some interest in their team's efforts to win, but when they resort to shaking their fists in the empire's face, grabbing the empire by the throat and threatening him with bodily harm and mob rule, it appears to me that, in justice to the public and the self-reland to Ingleside yesterday. and widespreadinterest in the popular mind as does that of Polimonary Consumption—phthiss pulmonalis.

Four hundred years before the hirth of our Lord, Hippocrates said that consumption was the most considerable of the diseases which then prevailed. The statement true then is true today.

Probably very few realize the enormous percentage of deaths in this country by consumption. I find in the proceedines of the Philadelphia Medical Society (Vol. 1x, p.27) this very extraordinary statement:

"According to the United States census reports for 1880, out of every 1,000,000 deaths 242,542 males and 302,046 females die of consumption." I have not the data for verifying or disproving this statement. But, in any case, I venture to say it is a matter sufficiently grave to command the most persistent and serious attention and research of the medical fraternity throughout the world.
